N.B The players highlighted with the red color are players that have potential but given the time and the circumstances we were in, they were not completely convincing to the team selectors so they decided to see them in the next provincial event or training camp. The under 19 ladies as well where unable to attend the camp due to exams and majority of them are attending outside the province of Limpopo.

## **7. TRANSPORT**

LAS has provided transport to our players who travelled from different districts.

The teams arrived safely on the day and well within the agreed times. No accidents were reported .

## **8. INJURIES**

We have had several players that sustained minor injuries and were taken to the nearest clinic for treatment.

## **9. CONCLUSION**

We are satisfied with the progress we are making as a federation and our view is that we need regular coaching clinics to improve basic fundamentals knowledge of our players. We further wish to thank LAS for having sponsored the federation with Transport costs. Without their support it would have been very difficult to stage successful camp.
